

# Trailed Appliances Health Check

This sheet is designed for the recording of maintenance schedules on trailed equipment such as trailers, balers, sprayers, and mounted equipment such as ploughs. Due to the diverse range of equipment on the market this sheet should be used as a guide and the comments section should be used for additional items.

This check sheet is designed to help the user ensure that the relevant vehicle is correctly and safely maintained. Any items which are found to need specific rectification would normally be best dealt with by a qualified technician. Safety critical items should always be rectified by a qualified technician. The responsibility for the provision of a safe vehicle and its safe use remains with the owner or driver. The operator's manual should be with the vehicle at all times.

Owner's Name:			
Job Ref No:		Engineer's Name:	
Make:		Model:	
Serial No:		Reg No:	
Date:		Hours / Mileage:	

Key	
Adjusted	<b>A</b>
Checked Completed	<b>CC</b>
